Steve Gray began his career in 1993 when the Inflatables industry was in its infancy. At a time where the basic bounce house was the only thing on the market, Steve saw a way to incorporate his artistic talents and business savvy into a manufacturing company that could provide Innovative, safe and income-producing products that would change the face of the inflatable industry. Steve has an uncanny way of knowing which products will captivate his audience, create laughter and put smiles on the faces of the children that use his creative designs proving him to be a top innovator and a leader in his field for 25 plus years and counting.

Freddy Osler was the proverbial boy that ran away with the circus. Literally. Without telling his parents. He started practicing on the flying trapeze in South Africa when he was 15 years old and within six months he quit school and was on a ship heading for his first professional circus contract in England. A spectacular sixteen-year career followed which included five Royal Command Performances throughout Europe and winning the World Championships in London in 1978. The following year – after having broken 11 bones during the preceding years – he finally had an accident that put him out of the trapeze business for life. In the ensuing years he dreamed of a better landing device than the sadly mis-named safety net used by trapeze performers. In 2005 he started experimenting with air bags and in 2007 he perfected and patented the now-famous *Zero Shock* airbag which has since been copied globally. Suddenly this airbag allowed ordinary people to do things without a safety harness that was never possible before!

Steve and Freddy got together in 2013 and decided to work together to make the most innovative interactive inflatable products in the world. They have succeeded spectacularly!

LENGTH: 70'
 WIDTH: 32'
 HEIGHT: 33'
 SLIDE PLATFORM: 27'

NEW PRODUCTS

2 GAMES IN 1

Watch the Jimmy Fallon Video to see how to play the game!

LENGTH: 18'
WIDTH: 18'
HEIGHT: 18'
WEIGHT: 365 LBS.

- INCLUDES:
- BLOWER
- (4) VELCRO VESTS
- (24) STICKY BALLS
- STAKES
- TRANSPORT BAG
- REPAIR KIT

Sticky Dodgeball was popularized by The Jimmy Fallon Show and is now in an inflatable version. The game starts by placing the Velcro balls on the center red Velcro strip. Once the ref blows the whistle, the players make a mad dash to the centerline to grab the sticky balls and thrown them on their opponents Velcro vest. The winner is judged by whoever has the least number of sticky balls on their vest. Game can be played with 2-4 players.

But wait there's more! This 2-n-1 interactive game also doubles as a 3 dimensional Triple Twist by simply removing the Velcro sheets from the walls, removing the anti-slip floor and replacing the front banner. Bend, Twist, Stretch! This clever new twist on an old classic Twister game is perfect for any occasion and fun for all ages.

Get ready....get set....time to chow down you hungry hippos!
Hippo Chow Down Jr. is the latest scaled down version with smaller footprint. This is the latest 4-player bungee tug-o-war style game that involves speed, strength and agility. Object of the game: Once the referee blows the whistle, each of the 4 players starts from their back wall and races to the pond of balls in the center of the game to retrieve as many balls as possible and return them to the mesh bag at their starting wall. Once all of the balls are chow'd down, the player with the most balls in their bag is the winner.

 MOVING CART, ALUMINUM CROSS
 BAR, WATER DRAINAGE SYSTEM, 40
 ABS STAIRS, (6) PIECES, SOAKER HOSE,
 DOUBLE-HEADED STEEL GROUND
 STAKES,

Introducing the world's tallest inflatable slide, that is sure to take the industry by storm with a combination of the most innovative technology, highest safety standards and breakthrough design for a ride never before experienced in an inflatable unit.

Measuring just over five stories tall, *SkySlide*® combines two heart-pounding rides in one unit to appease everyone's inner adrenaline junkie. With a 30-foot vertical drop on one side and the insanely fast Vertigo Super Slide on the other, both finishing off with a "kicker" that launches the rider into the air before softly landing onto the *Zero Shock*™ Inflatable Impact Attenuation System "IIAS"; this beast will not disappoint even the biggest thrill-seeker.

Safety is a priority and the proof is in the design. After years of perfecting, Inflatable 2000® is now incorporating *Zero Shock*™'s patented Inflatable Impact Attenuation System "IIAS" into its units. Originally created for Hollywood stunts and trapeze artists, this revolutionary system delivers less impact at greater heights and speeds allowing designers to go beyond backyard bouncy castles and enter into a world of true exhilaration. Removable SureTread stairs are made of impervious ABS plastic to withstand thousands of trampling feet before showing wear. Gone are the days of slippery foam stairs that degrade quickly.

Although the magnitude of this mobile Giant may seem intimidating, the addition of several new technologies ensures effortless set-up and tear-down. The *Cylindrovator* base design inflates and deflates the unit in less than thirty minutes with the use of constant air, to keep the party going, the *EZ Drain* system® redirects pooled water for fast, easy draining.

This material and all products are covered by Action Word International, LLC. All rights reserved. Designs, patents, logo, mark, products, pictures and product names are registered trademarks of Action Word International, LLC. Publication 2016.

The *FreeFall* experience is suitable for a wide range of participants from 6-65 years of age. Everyone can do it, and everyone will have a blast doing it!

This mobile stunt jumping tower can handle large crowds of all age groups because it's not necessary to attach a safety harness to the jumper. Simply climb the *FreeFall* jumping tower and jump off from the 12'h platform or the 18'h platform (120-160PPH). Our designers took time to learn techniques from stunt professionals such as Steve Wolf from the Stunt Ranch in Texas. Steve and his team rate the bag as nothing less than AWESOME and the softest and safest air bags ever designed!

FreeFall dropping is the newest extreme sport that everyone is talking about and it's great for building confidence as well as producing massive amounts of adrenaline and is just as much fun to watch from the ground.

The twin-platform is designed so that participants must first successfully complete the lower 12' jump to ensure "proper landing position" technique prior to attempting the higher 18' platform. If the participant does not successfully jump as per written and verbal instruction, then the jumper does not move up to the higher jump platform!

Get ready....get set....time to chow down you hungry hippos!

Hippo Chow Down is the latest interactive game from Inflatable 2000 guaranteed to keep your participants and spectators laughing for hours. This is the latest 4-player bungee tug-o-war style game that involves speed, strength and agility. Object of the game: Once the referee blows the whistle, each of the 4 players starts from their back wall and races to the pond of balls in the center of the game to retrieve as many balls as possible and return them to the mesh bag at their starting wall. Once all of the balls are chow'd down, the player with the most balls in their bag is the winner. (Game comes with 25 balls) – Additional artwork or log panels can be purchased separately to re-theme the game.

4 SPOT:
 A challenging game of vertical strategy that's easy to learn and fun to play. Rules are simple. Each player tries to build a row of four playing pieces in the frame - horizontally, vertically, or diagonally - while trying to prevent their opponent from doing the same.

Object of the game:
 Be the first player to get four of your colored game pieces in a row - horizontally, vertically or diagonally.

TIC TAC TOE:
Tic Tac Toe or X's and O's was originally a game only played on paper. Now this traditional game is resized to Giant proportions and can now be played on any surface indoors or out. The game takes on a whole new dimension when it is played in Giant size with GIANT foam game pieces. The inflatable game is easily transportable, lightweight and playing area measures about 6'x 6' square. Each player gets 5 giant X's and 5 giant O's. The X player usually goes first and in order to win, all you need to do is place 3 of your game pieces in a row horizontally, vertically, or diagonally.

Whack-a-Mole, the new game from Inflatable 2000. This design is our interpretation of the traditional reaction game which has a long history as an arcade game. The reason it has never “made it” as a rental product is because it has always been rather heavy and cumbersome to move around. Yet again, Inflatable 2000 has overcome that problem and we have developed a truly mobile, inflatable version of the game which is fast and easy to erect. There are no solid or fixed parts inside, it is totally inflated with some secret little ways of making it work! That means it packs down to almost nothing. The blower is also nearly silent!

This *Whack-a-Mole* game is fantastic for 1 vs 1 or 2 vs 2 players. The idea is to start by having an equal number of moles visible on each side. Players then hit the moles on their heads as fast as they can so that the opposite player has more moles above the surface than you do. As you hit one down, the one on the other side will raise up. After 20 seconds or so, the player with the most moles hit down is the winner.

Whack-a-Wall is an awesome new inflatable game from Inflatable 2000 that combines speed, accuracy, agility, dexterity, fitness and FUN!!!! A twist on both Reaction Walls and the traditional Batak, the *Whack-a-Wall* inflatable game is fast to erect and very lightweight. It is perfect for children’s parties, adult events, corporate events, fun days, carnivals and much, much more. The *Whack-a-Wall* inflatable is a great addition to any bouncy castle fleet because it is inexpensive and a lot of fun.

Beware of the Gators and Piranha!
They're hungry and are going to get you if you fall off Inflatable 2000 Inc.'s, *LAGOON OF DOOM*. Test your agility and endurance when you climb on the foam log, making it spin on its axle. Attempt to keep your balance, as your opponent tries spinning faster, trying to spin you off. Meanwhile, the lagoon creatures are nipping at your heels trying to make a meal of you. Will your partner take the plunge before you do?

(2) ADULT BUNGEE CORDS
(2) CHILD BUNGEE CORDS
(4) HARNESES
REPAIR KIT
TRANSPORT BAG
STAKES

High energy for up to 4 players.
Object: Teams of two (with teammates kitty-corner from each other facing their opponent) start with (4) team colored balls in each lane of the inflatable. When the referee blows the whistle, each player is in a mad dash to pass their balls through the holes in the netting in front of them which separates them from their opponent. At the conclusion, the team with the least amount of balls in their lane wins! The zany catch to this game is that each player is wearing a harness that is attached to a bungee cord which is attached to the opponent next to them!

INFLATABLE INTERACTIVES

LENGTH: 35'

The safe and competitive alternative to bungee jumping!
Test your strength! Wearing a harness with a giant bungee cord attached, opponents run side by side down the long inflatable runway. The object is to see who can get the farthest down their lane and place a Velcro baton on the center strip before the cord drags, rolls, blasts and bounces them back to the starting position.

Bungee Hoop Shootout is great because it's like two games in one!
It's a Bungee run and basketball game all wrapped into one. Two players get harnessed up to a bungee cord. When the attendant blows the whistle or gives the command to start, each player grabs a basketball and races down their lane to see who can make the basket before the bungee cords reach the end and blasts the player back to the start of the game.

The *3-lane Bungee Run* is played with three players who are in a mad dash to see who can get their Velcro baton the farthest down the lane. 3 players get harnessed up to a set of bungee cords and when the attendant blows the whistle or gives the command to start, they run down the lane to see how far they can get before the bungee cord stretches to its capacity and blasts them back to the starting point. This is a great addition to any team building activity.

This is a race against your opponent and a test of your own skill. Two competitors try to climb up the rope ladder. The one who makes it to the top first wins. Of course, if you fall, there is a nice soft inflatable floor to catch you. Universal in appeal, this interactive has a large potential for fund-raising events and great for prize give-a-ways! It is also very challenging, physical, and a great test of balance and coordination for all ages and a lot of fun!

The ladders are made of stretch resistant poly rope, the wooden rungs have a long-wearing finish, the wedge shaped mat is made of 18 ounce coated fabric, and the frame is heavy steel. The frame is completely portable and requires no staking. Frame sections sleeve together. When dismantled, they easily fit into the back of a pick-up truck with the mat and blower.

Pillow Bash is an inflated version of an old fashion pillow fight.

The game that brothers, sisters and kids have played at home for years. The *Pillow Bash* puts two contestants on a vinyl, foam covered beam, over a giant inflatable mattress to see who gets knocked off first. *Pillow Bash* beam can be purchased separately if you already have Inflatable 2000 Inc.'s Gladiator Joust game.

Ladies and gentlemen, welcome to the main event! For tonight, we have an exciting match for you. In the Blue corner, weighing 198 lbs., we have a senior starting football player. And in the Red corner, weighing 105 lbs., we have a varsity cheerleader. Are you ready to rumble!!

Sparing contestants enter the inflatable ring wearing over-sized boxing gloves. When the referee sounds the bell, the contestants start their bout. The first boxer to knock down their opponent within three, one minute rounds is the champ. Hilarious to watch and just as much fun for spectators as it is for participants. The fun begins when the contestants hilariously and clumsily try to 'box' their opponent. Forget about those old fashioned pillow fights. It's time to duke it out and take home the championship belt.

This is a 2-4 player game.

There are four lanes to choose from. Each participant enters the attraction wearing their protective head gear and goes to the side they choose. They line up in the center near the rope. When the operator blows the whistle or gives the command to start, each player races to the top using the rope and grabs one of the four colored batons for their lane. Once the player has the first baton, they slide down to the same area where they started from and places the first baton on the Velcro strip located on the top of the wall and then proceeds back to the top to retrieve another baton. The first player to have all of their colored batons placed, is declared the winner!

You've see those huge sumo wrestlers on television; well now you can be one without gaining all that weight. Simply step into a foam padded Sumo Suit, seeing yourself three times your actual size, put on the helmet and mitts, walk out onto the mat and you're 'there'. A referee starts the match and the two 400 lb. competitors push, pull, trip and grab their opponent to bring them down to the mat or push them out of the ring. The victorious wrestler gets the crowd into a frenzy by then leaping on top of the defeated wrestler as the referee declares the winner.

Our inflatable *Sumo Arena* is the perfect answer when thinking safety!

The key feature of the *Sumo Safety Arena* is to keep everyone involved safe. The Arena keeps participants from falling outside of the protective foam wrestling mat. It also keeps bystanders at a safe distance by providing a safety buffer. Our unique wedge-shaped design makes it safe for the participants to land only partially on the inflated surface. It also makes it much easier to get participants back on their feet! Participants and operators can easily walk in and out of the *Sumo Safety Arena* via a single opening at the corner of the unit.

A race track for the *Zorbie Balls* that not only protects them, but is an absolute blast for kids and adults of all ages! The C4 (*Criss Cross Collision Course™*) is a whopping 100 ft long and has nearly 250' of racing lane action. The game can competitively accommodate 2 Zorbie Balls at a time, and is filled with loads of obstacles and varied terrains. For an added splash, the C4 has four water traps that can be filled with a couple of inches of water that add a whole new dimension to the game! You see, when the player transitions from the dry track to the water trap, they hydroplane over the water and can lose traction allowing them to slow down and even lose total momentum, causing them to spin without gaining any ground for a short time. This can be all that is required for the other player to catch up and pass the other player. The game operator as well as spectators can stand near the middle of the game and have a clear view of the players as they race to victory lane. Hours and hours of fun!

Our *Bungee Bull* is as much fun as the infamous mechanical bull but without the jarring and jerking.

Participants ride on a foam-padded bull and hang on for dear life while fellow cowpoke pull four bungee cords, attempting to safely toss you off onto an inflatable mattress to cushion your fall... because you will fall. Hold on tight for the ride of your life! Great for team building, as the teams pull on the cords trying to knock the opponent off, saving you money on extra labor. Each Bungee Bull's body is hand fabricated of aluminum to reduce weight and increase durability, all other main components are hand crafted and engineered of steel for strength and durability.

This laser tag system fills your client's need to experience dynamic, interactive modern entertainment, while at the same time keeping your operation simple and costs low. The X-Blaster is a pick-up-and-go, lightweight, Blaster-only laser game for all ages with all electronics built in so you can be making money in minutes.

It is 'BLASTER ONLY' - there is no need for a traditional vest (vest can be added as an option if you want a more traditional laser tag game). Inside this smart blaster are all the laser tag game elements like main processor board, IR light emitter, IR sensors, scoring display, speaker, flashing lights and the latest technology Li-ION (Lithium Ion) lightweight battery for long reliable life. Teams are easy to distinguish with X-Blasters whether in bright light or darkened conditions.

X-Blasters are the only laser tag guns on the market which are available in a rainbow of colors (other than the traditional black). You can have your set in red, green, blue, yellow, gray, olive, or two tone on special request (or for the traditionalist - black).

Durable & Safe. Each x-blaster has a solid state trigger (no moving parts) and is equipped with two handed safety interlock to prevent players from waving the blaster around. Our lightweight design and a rubber nose cone make a large improvement on safety.

MOTHERS make the Decision!! Mothers do not want their children to be a part of military oriented combat with black, heavy, military style laser tag guns. Our X-blasters are designed to keep both the mothers and the kids happy - lightweight, safe and colorful with LOTS of features. We know that your clients (mothers who pay the bills) will base their buying decision on the 'look and feel' of the product. They decide if their kids are going to play at your center.

Make the decision easy - X-Blaster laser tag is a great game and fun for all the family.

AND STAKES

Climb the stairs to the top platform and get attached to the *Zipline* cable and experience the exhilarating thrill as you zoom down the *Zipline* like you were Indiana Jones. Everyone loves flying through the air and anyone can do it. The thrill of Ziplining has been around for years and Ziplines are popping up all over the U.S. so we've come up with a portable, inflatable version. Best of all, there's no need for steel or excess weight! With our revolutionary "sealed air" frame, we've eliminated the need for a heavy steel frame that takes time to set up and extra space in your vehicle. The "sealed air" frame keeps the unit from collapsing from the weight of the rider, whereas an entirely cold air *Zipline* would be too big and heavy to maneuver to keep your rider safe.

Bend, Twist, Stretch!

This clever new twist on an old classic game is perfect for any occasion and fun for all ages. Hand constructed from the finest heavy-duty industrial vinyl and double stitched to ensure that your *Human Pretzel* will last for many years to come. The circles are multiple colors for authenticity. The inflatable mattress is easy to store, and most importantly, safe! Up to ten players can participate in this ultimate test of dexterity and balance making this game a great way to keep everyone enthralled in the action. The game show style wheel is constructed from a high grade medium density fiber board wood, with stainless steel pins. The graphics on the wheel are printed in a large media format and a high gloss laminate for an overall outstanding quality and presentation.

The spinner wheel is 3' tall and 24" wide on the wheel. Spin the wheel to determine which corresponding limb and color each contestant will have to place on one of the many circles. Treat your friends, guests, clients, or co-workers to the time of their life at your next party or event

Get ready to feel the *Shock Wave!* This gigantic jump and slide combination interactive is shaped like a tidal wave and features two games in one. The first set of steps takes you up to a gigantic jumping platform from which you leap onto a *Zero Shock* jump pit. Farther up the second set of steps is a huge dry slide down onto another *Zero Shock* landing pad. The Tidal Wave combination jump pit and slide features our patented *Zero Shock* technology that consists of a series of pillar shaped cushions which create a super-soft and safe landing every time!

Zero Shock is a patented landing system based on a series of vertical pillar-shaped inflated air cylinders. The pillars act like huge shock absorbers and grouped together in a landing area that creates a soft cushioning effect similar to jumping into water. When the series of inflated pillars are landed on, they crumple at exactly the right speed to absorb the impact. This is based on the design of the pillars which allows for just the right amount of inflation. With too little air in them, they would crumple too quickly, and the impact of the jump would not be absorbed. With too much air, they would not collapse enough causing an impact from landing on an overly-inflated surface and possibly bouncing off. The *Zero Shock* technology creates the correct amount of inflation in the air cushions to allow for the softest landing possible with maximum protection and no bounce! Safe, soft and *Zero Shock!*

Large netted jumping area

The Log Jammer Extreme Water Slide is much larger version of the Log Jammer Slide. It includes a Surf 'N Slide water landing. Climb 20' of rugged terrain including logs, boulders and trees. At the top of your hike you are faced with almost 60' of an exhilarating water slide! Beneath this massive water slide is an enclosed jumping area. Two attractions for the price of one! What better way to keep kids and adults entertained on a hot summer day than a cool, refreshing water slide and a day of jumping.

US Patent No. 7,357,728 B2
US Patent No. 8,425,338 B2

The Corkscrew unit features two large side-by-side corkscrew tunnels that would-be warriors must scramble through to advance to the next challenge. The A-frame unit has two red balls hanging from the A-frame structure that you must navigate through or use to knock your opponent over. Challengers must jump or swing across on the ball and rope or risk falling into the inflatable moat, which can be filled with water, foam or ball-pit balls. The tire run unit features a series of fifteen inflatable tires that you run through like a boot camp drill. Rugged warriors who make it past the first three obstacles then face the Leap of Courage. To tackle this challenge, you must climb to the top of the jump tower and leap (if you dare!) onto the Zero Shock™ free fall air Bag below. Our patented Zero Shock™ technology features a series of inflated 'fingers' which safely cushion the daring free fall. The Sweeper unit features a series of pop-ups to navigate around plus a sweeper beam. Players must jump over the Sweeper beam as it rotates to advance through the course. The Corkscrew, tire run and sweeper units feature mesh sides as well as inflatable sides to allow for maximum visibility. Warriors must then scale The Cliff using handles that go up the vertical sides of the inflatable wall with a moat-style ball pit on either side. Finally, the Rope Climb Slide is a boot-camp style rope climbing cargo net which warriors must scale before sliding down to the end.

When all units are combined, the *Rugged Warrior Challenge* extends to an impressive 131 feet. Long on courage, but short on space? The units can be connected via the 180 degree connector (sold separately) to create a U-shaped course which reduces your overall length if you are short on space.

**Action World International
TERMS AND CONDITIONS OF SALE**

1. ACCEPTANCE: WE ACCEPT AND CONFIRM YOUR PURCHASE ORDER FOR THE ITEMS, GOODS AND PRODUCTS DESCRIBED HEREIN. YOU AGREE TO THE TERMS AND CONDITIONS OF SALE SET FORTH ON THE FACE AND REVERSE SIDES HEREOF. NO DIFFERENT OR ADDITIONAL TERMS ARE ACCEPTABLE BY *Action World International* UNLESS AGREED ON IN WRITING AND SIGNED BY *Action World International*. THESE TERMS AND CONDITIONS ARE EXCLUSIVE AND IN LIEU OF ALL OTHER TERMS AND CONDITIONS APPEARING ON BUYER'S PURCHASE ORDER OR ELSEWHERE AND APPLY TO ALL QUOTATIONS MADE AND ORDERS ACCEPTED BY ACTION WORLD INTERNATIONAL UNLESS SPECIFICALLY STATED TO THE CONTRARY ON THE FACE OF THIS CONFIRMATION OF ORDER. ACTION WORLD INTERNATIONAL IS NOT RESPONSIBLE FOR TYPOGRAPHICAL OR CLERICAL ERRORS MADE IN ANY QUOTATIONS, ORDERS OR PUBLICATIONS.

2. Payment: Payment shall be made as follows: Buyer must make a 50% deposit on the price of each custom made item or each item not currently in stock. The balance is due prior to the date of shipping the item, which date will be provided to Buyer by *Action World International* on the reverse side hereof or as soon as possible. For orders of equipment and items in stock, 100% payment shall accompany Buyers return of this confirmation of Order. All funds for payment shall be in U.S. dollars in the form of cashier's check, money order, wire transfer, or Buyer's credit card. Deposits, but not final payment, may be made in the form of buyer's check, payable to *Action World International* Shipments will not be made C.O.D. *Action World International* may refuse to manufacture any item unless payment in full is first received whenever, on the sole discretion of *Action World International* there is doubt as to Buyer's ability to pay.

3. Shipment: The goods shall be shipped F.O.B. carrier *Action World International's* factory, Azusa, CA. All risk of loss passes to Buyer when *Action World International* delivers the order, or any portion thereof, to the carrier. If Buyer does not specify a preferred method of shipment, *Action World International* shall exercise sole discretion in selecting a method of shipment. *Action World International* uses the services of major common carriers and delivery services and, for foreign orders, freight forwarders. All costs and expenses relating to shipment, including insurance, customs expenses, duties, taxes, etc. shall be the sole responsibility of Buyer. *Action World International* generally will ship freight collect, unless Buyer requests other arrangements and prepays *Action World International* for all shipping expenses. Shipments will be insured at Buyer's expense unless otherwise specified, and *Action World International* assumes no responsibility for placing of valuation upon a shipment unless requested to do so by Buyer. Partial shipments of any order from Buyer may be made by *Action World International* in order to facilitate the earliest possible delivery of the item ordered; provided, however, that partial shipment shall not be made unless *Action World International* has been paid in full for the entire order. The customer must inspect the package(s) for damage(s) before signing the Bill of Lading. Customer should refuse the shipment if there is damage on the package or should make a note on the Delivery Receipt (Bill of Lading), for further claim evaluation. Any freight claim must be submitted to the freight carrier immediately.

4. Delivery: The promised delivery date is the best estimate possible based on current and anticipated factory loads, of when the order will be shipped. *Action World International* shall not be liable for damage or for delay in delivery arising from causes beyond its control and without its fault or negligence including, but not limited to, Acts of God, public enemy, acts of government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes and unusually severe weather. If the delay is caused by the delay or default of a subcontractor of *Action World International* and if such delay arises from causes beyond the control of both *Action World International* and the subcontractor, *Action World International* shall not be liable to buyer in damages.

5. Inspection: Buyer shall inspect the product(s) promptly after receipt and shall notify *Action World International* in writing, including photos, of any claims, including claims of breach of warranty, within five (5) days after Buyer discovers or should have discovered the facts upon which the claim is based. Failure of Buyer to give written notice / photos of a claim within the inspection time period shall be deemed to be a waiver of a claim for defective products, a waiver of the right to reject the goods, and conclusive proof that the product(s) were received by Buyer without defect(s).

6. DISCLAIMER: THE PROVISIONS OF PARAGRAPH 5 ARE ACTION WORLD INTERNATIONAL'S SOLE OBLIGATION AND ACTION WORLD INTERNATIONAL EXCLUDES ALL OTHER REMEDIES OR WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, AND ALL WARRANTIES ARISING FROM THE COURSE OF DEALING OR USAGE AND CUSTOMS OF THE TRADE. WHETHER OR NOT PURPOSES OR SPECIFICATIONS ARE DESCRIBED HEREIN. ACTION WORLD INTERNATIONAL FURTHER DISCLAIMS ANY RESPONSIBILITY WHATSOEVER TO BUYER OR TO ANY OTHER PERSON FOR INJURY TO PERSON OR DAMAGE TO OR LOSS OF PROPERTY OR VALUE CAUSED BY ANY PRODUCT WHICH HAS BEEN SUBJECT TO MISUSE, NEGLIGENCE, ACCIDENT, MISAPPLIED, MODIFIED OR REPAIRED BY UNAUTHORIZED PERSONS, OR IMPROPERLY INSTALLED.

7. LIMITATION OF LIABILITY: UNDER NO CIRCUMSTANCES SHALL ACTION WORLD INTERNATIONAL BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL, PUNITIVE, RELIANCE, DELAY OR SPECIAL DAMAGES, LOSSES OR EXPENSES ARISING FROM THIS CONFIRMATION OF ORDER OR ACTION WORLD INTERNATIONAL OR BUYER'S PERFORMANCE OR NONPERFORMANCE, OR ANY ACTS OR OMISSIONS OF ACTION WORLD INTERNATIONAL OR IN CONNECTION WITH THE USE OF, OR INABILITY TO USE, THE GOODS FOR ANY PURPOSE WHATSOEVER. IN ANY AND ALL EVENTS. IN THE EVENT ACTION WORLD INTERNATIONAL IS FOUND LIABLE FOR DAMAGES NOTWITHSTANDING THE LIMITATIONS AND EXCLUSIONS OF PARAGRAPHS 7 AND 8, ACTION WORLD INTERNATIONAL SHALL NOT BE RESPONSIBLE FOR DAMAGES TO ANY PERSON OR ENTITY, INCLUDING BUT NOT LIMITED TO BUYER AND BUYER'S CUSTOMERS, FOR AN AMOUNT EXCEEDING THE AMOUNT PAID BY BUYER FOR THE PRODUCTS ORDERED AND CONFIRMED BY THIS CONFIRMATION ORDER.

11. Cancellation of custom or modified Products and re-stocking fees: All sales are final. Orders may be cancelled at no charge if the cancellation is made on the invoice date only. Cancellations made after invoice date will result in a 20% restocking fee. All other cancellations, except for custom orders and sign banners will result in a 25% re-stocking fee. Cancellation of custom orders or sign banners will result in full payment being forfeited. Buyer may cancel this order, in whole or in part, upon both written notice to *Action World International* and payment of cancellation charges, which charges shall be the sum of (1) the price of all goods that have been delivered and not previously paid for, plus (2) the actual cost incurred by *Action World International* that is properly allocable to the goods not delivered at the time of decrease or cancellation, including, without limitation, the cost of components and materials purchased for use in producing such goods, plus (3) the profit, and reasonable overhead that *Action World International* would have made from full performance by Buyer, plus (4) the costs of engineering, prototypes, testing, tooling, and similar items produced for Buyer, plus (5) the reasonable costs incurred by *Action World International* in making settlement and effecting collection hereunder. Buyer may require delivery to it of any material (except tools, molds, dies and any other equipment) for which payment hereunder is made.

12. Returns Policy: For any item purchased from *Action World International* and returned for reasons unrelated to a warranty claim, a restocking fee of 25% of the price of the item(s) refunded will be paid by Buyer.

13. Warranty: All inflatables warranted for only (1) year against workmanship and material. Any defect in products resulting from negligence, improper usage or unusual wear and tear caused by excessive usage is excluded from *Action World International's* warranty coverage. The customer's usage of any inflatable product on a hard surface base (any surface other than grass), without the use of a tarp shall constitute improper usage and any resulting damage or defect shall not be covered by *Action World International* warranty. Colors, artwork and design are subject to change without prior notice and will not be considered defects. Warranty repair work will be provided by *Action World International* at the Azusa plant. *Action World International* disclaims any responsibilities for modifications and repairs from an unauthorized repair plant. All shipping costs to and from our facility for warranted items will be paid by customer. All new Blowers and non-*Action World International* manufactured products are warranted directly by the respective manufacturer. For blower trouble-shooting or warranty, please refer to the blower manufacturer manual included in box. All other accessories have a thirty (30) day warranty from date of shipment. No warranty is provided on misters, soaker hoses, zippers, grommets. Human Spheres carry no warranty. All used inflatables are sold "as is" with no warranty. Except as provided in the above agreement, *Action World International* makes no other warranties on its products. FEC's (Family Entertainment Center) have a one (1) year warranty.

14. Taxes: All charges are subject to the federal, state and local taxes, if any, pertinent at the point of delivery. Buyer shall pay such taxes imposed on this order, and all penalties and interest, if any, accrued therewith. All "Will call" orders and orders shipped with a CA destination are subject to CA sales tax, unless recipient has a valid CA Seller's Permit.

15. Interpretation: The rights and liabilities arising out of this contract with *Action World International* shall be determined under the Uniform Commercial Code as enacted in California, without application of choice of law rules or the United Nations Convention on Contracts for the Sale of Goods (as to foreign shipments).

16. Effect of Breach on Risk of Loss: Breach of this contract by *Action World International* shall have no effect on the provisions controlling the risk of loss of the goods, and Sections 2-510 (1) and 2-510 (2) of the uniform Commercial Code shall have no effect on this Confirmation of Order.

17. Indemnification: Buyer agrees to indemnify, hold harmless and defend *Action World International* from actions and claims of third parties, including customers of Buyer and users of the goods and products sold to Buyer, arising out of or in connection with the use of the goods and products herein described. In the event *Action World International* is required to commence an action to enforce this provision, Buyer shall pay all of *Action World International's* legal costs and expenses.

18. Integration: There are no representations, warranties or conditions, express or implied, statutory or otherwise except those herein contained, and no agreements or waivers collateral hereto shall be binding on either party unless in writing and signed by buyer and accepted by *Action World International*. This Confirmation of Order contains all of the promises, warranties, terms and conditions of the agreement between the parties and supersedes any and all oral or implied promises, undertakings and prior agreements.

19. Governing Law, Jurisdiction and Venue: In the event of litigation between the parties concerning the order or any products shipped to Buyer hereunder, such action shall be governed by the laws of California, U.S.A., venue shall be in Covina, California and the action shall be brought in the California or federal courts of appropriate jurisdiction.

Due to product development and improvement, artwork, shape, size and color may not reflect the latest changes.
